

INTERNATIONAL CONFERENCE ON GOVERNANCE FOR SUSTAINABLE DEVELOPMENT

*Lessons learned from MDGs & a way
forward to SDGs*

Conference Tracks in detail

Conference Tracks

- **NEW ECONOMIC STRATEGIES TO END POVERTY, HUNGER, INEQUALITIES AND DISASTERS**

Poverty is one of the main issues that all societies should strive to eradicate in order to achieve sustainable development. It could be either direct or indirect result of deficiencies in many other factors such as education, health, inequitable distribution of wealth. Also, increasing trend of disasters affects all dimensions of lives. These issues are interrelated and create vicious circles. Thus, multi-dimensional and holistic approaches are needed in addressing these issues.

- **PROMOTE INCLUSIVE AND QUALITY EDUCATION**

Better systems of education have to be introduced specially in developing countries as it could provide inclusive, equitable and affordable learning opportunities for all. Innovative education systems have to be experimented in order to enhance the capabilities of mankind. It ensures human wellbeing by promoting peaceful and democratic societies that would facilitate the achievement of sustainable human development.

- **CLEAN WATER, SUSTAINABLE ENERGY AND CONSERVATION OF ENVIRONMENT FOR HEALTHY LIVES**

Clean water, sustainable energy and environmental protection are vital needs for all living beings as it lays a foundation for a healthy nation who can immensely contribute the development endeavors. But the unavailability of clean water and sustainable energy sources had affected the lives of thousands of people. This is the high time to invent new mechanisms and technologies to protect water and energy sources and the natural environment while ensuring the provision to all.

- **JUSTICE FOR ALL THROUGH EFFECTIVENESS AND ACCOUNTABILITY**

Peaceful and inclusive societies are incredibly essential to strengthen the efforts of sustainable development. Promoting effective and accountable institutions will prevent all kinds of violence and divisions in the societies. Thus, ensuring rule of law and effective public service delivery are the key concerns for most of the countries to progress and face the concurrent development challenges.

- **COLLABORATIVE INITIATIVES OF GOVERNMENTS, PRIVATE SECTOR, AND CIVIL SOCIETY**

Businesses, government and society are the societal constructs for ensuring better lives for living beings. However, this objective may not be realized if these entities are not connected. Thus, to transform this SDGS' dream into reality, unquestionably it requires synergistic collaborative works. Also, new roles for collaborations which reflect a new combination of businesses, government and society are necessary.

Authors are invited to submit their papers which share policy experiences, present practices, and innovative initiatives, conceptual and empirical findings and also best practices focusing on the provided themes.
